ABOUT ME

Creative and detail-oriented UI/UX Designer with a background in Software Development and hands-on experience designing responsive web and mobile interfaces. Skilled in user-centered design, wireframes, prototypes, user flows, and visually engaging interfaces. Passionate about solving user problems through simple, intuitive, and accessible design.

PROJECTS

Eventora – Event Management App

UI/UX Design | Ongoing

- Designing an event management application focused on making event planning and organization simple and convenient.
- Creating user flows, wireframes, information architecture, and mobile app interfaces for event-related activities.
- Designing intuitive screens and interactive Figma prototypes with a focus on usability and clear navigation.

BookVerse – Book Reading Website

UI/UX Design | Ongoing

- Designing an informational book reading website that helps users discover, explore, and learn more about books in an engaging and user-friendly way.
- Creating user flows, wireframes, information architecture, and responsive web interfaces with a focus on simple and intuitive navigation.
- Designing book categories, book details, reading-related content, and interactive Figma prototypes to create a smooth and enjoyable user experience.

INTERNSHIP

UI/UX DESIGNER INTERN – SMEC Technologies

Worked on user-centered interface design, wireframing, prototyping, responsive layouts, visual design, and improving user flows for clear, intuitive digital experiences.
